

Certificate Course in Process Automation

Course Syllabus

- Low Voltage Switchgear
- AC/DC Drives
- Programming of Industrial Controllers (PLC)
- SCADA
- HMI & Networking
- Mechatronics
- Process Instrumentation
- Distributed Control Systems
- Embedded Systems and Internet of Things
- Design Thinking / Operations Management

Sectors require skills in Process Automation

- Oil and Gas
- Aerospace
- HVAC
- Power Generation
- FMCG
- Automobiles
- Marine
- Defence
- Mining
- Steel
