Future Starts Here >>>

EMPOWERING NATION THROUGH SKILLING

ABOUT CEMS

The Centre of Excellence in Maritime and Shipbuilding (CEMS) is a Not for Profit company established in 2017 by the Ministry of Ports, Shipping and Waterways under the Sagarmala Project. It provides knowledge and skill development in Maritime, Infrastructure, and Manufacturing sectors.

CEMS has world-class infrastructure in Visakhapatnam and Mumbai, with a focus on Industry 4.0. Its mission is to promote the advancement and implementation of industry 4.0 skills, transforming existing industries into smart factories through research and education partnerships.

ABOUT THE COURSE

This course is designed to provide maritime professionals with the essential tools and techniques of project management, specifically adapted to the complexities and demands of the maritime industry. Participants will learn how to plan, execute, monitor, and close projects effectively, ensuring that they meet industry standards, regulations, and safety requirements. The course also covers risk management, stakeholder engagement, and resource allocation tailored to maritime projects.

ABOUT PMI

Project Management Institute is the world's leading not-for-profit professional membership association for the project, program and portfolio management profession. Founded in 1969, PMI delivers value for more than 2.9 million professionals working in nearly every country in the world through global advocacy, collaboration, education and research. PMI advances careers, improves organizational success and further matures the profession of project management through its globally recognized standards, certifications, resources, tools academic research, publications, professional development courses, and networking opportunities.

WHY TAKE THIS COURSE?

This course is essential for maritime professionals who are looking to enhance their project management skills within a sector that demands precision, compliance, and efficiency. It is also a valuable opportunity for those seeking to advance their careers in the maritime industry by acquiring a specialized skill set recognized globally.
